

SmartCycler®
Powered By CEPHEID INNOVATION

SmartMix™ HM:

Simple, stable, easy to use PCR master mix in bead format.

Simple. Stable. Easy to use.

SmartMix™ HM is a premium master mix that provides all the necessary reagents to perform PCR in a stable, easy to use bead format. SmartMix HM is optimized for single target and multiplexed real-time PCR reactions. Cepheid's SmartMix HM, manufactured under cGMP, also delivers increased stability and extended shelf life. By reducing pipetting steps, SmartMix HM helps reduce human errors and decrease the risk for contamination.

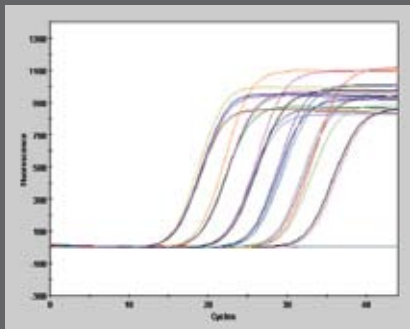

Increased lab efficiency

- Reduce risk of contamination with stable bead format
- Reduce human error with minimal pipetting steps
- No heat activation required

Reproducible Performance

SmartMix is reproducible over a broad range of target concentrations.

Dilution series of HSV DNA on the SmartCycler® System using SmartMix HM.

Ordering Information:

SmartMix HM™	Catalog No. SMHM1-150N-040
(20 beads, enough for 40 reactions.)	
SmartMix HM™	Catalog No. SMHM1-150N-200
(100 beads, enough for 200 reactions.)	

The purchase of this product allows the purchaser to use it for amplification of nucleic acid sequences for human *in vitro* diagnostics. No general patent or other license of any kind other than this specific right of use from purchase is granted hereby.

This product is made using components produced and licensed by Eppendorf AG. The purchase price of this product includes limited, nontransferable rights to use only this amount of the product to practice the method for reversible inhibition of thermostable polymerases as claimed in US Patent No. 6,667,165.
